

11th Nordic WFD Conference 25 – 26 September 2024

**– Implementation of measures in surface and groundwater –
successes and difficulties in the Nordic countries**

Discussions in Working Groups

Conference Room 8, 2nd floor, Thursday 26th Sept 2024

WG2 - Eutrophication (Lead country – SWEDEN)	
Chair: Philip Axe Secretary: Jonas Svensson	
09:00	Short remainder from yesterday: Summary of <i>topics and discussions</i> from Day 1. What are we bringing with us to Day 2? Introduction to WG and explanation of WG format <i>Plenary and thereafter division into group rooms</i>
9:15 - 9:30 9:30 – 10:30	Short round of presentation in group rooms and start of discussions Introduction to WS and explanation of WS format Summary & discussion of morning's outcomes Short presentation round if possible (depending on number of participants) Introductory, case study or just inspiratory talk from each (if desirable) country, max 10-12 min per country in regards to; <ul style="list-style-type: none">• Overall status, need for reduction load calculated (target loads and run-off),• Which measures are in use, how are the measures implemented and placed in the landscapes, what are the remaining gaps, what are the main challenges which still needs to be addressed?• Target setting; loads vs concentrations• Harmonising between WFD, MSFD, NiD; Effect of new UWWTD, Nature Restoration Regulation etc Short presentations <ul style="list-style-type: none">- <i>Philip Axe SwAM: Harmonising water and marine management goals.</i>- <i>Carina Rossebø Isdahl, Vannområde Morsa: How we reduce the eutrophication pressure – Example from the Morsa-catchment in southeastern Norway by Carina Isdahl project manager Morsa river basin organization.</i>- <i>Vincent Westberg, Case study Finland</i>- <i>Charlotte Jørgensen, The danish RBM3 for lakes and coastal water with focus on main pressures and measures.</i>
10:30 – 11:30	Bullets for the deeper Discussion Measures 1 – e.g;

<p>11:30 – 12:30</p>	<p>Quantification of need for measures; Risk maps, leakage modelling, determining & managing legacy P Measures in coastal waters vs impact from offshore</p> <p>Measures 2 – e.g; Implementation frameworks and success rates (i.e. mandatory or voluntary; financial support etc?) Expected life of measures Monitoring, handling of data, follow-up of effectiveness</p> <p>Short presentations</p> <ul style="list-style-type: none"> - Faruk Djodjic ,SLU – Effectiveness and lifetime of measures around Björnöfjärden, Stockholm Archipelago - Niklas Holmgren AgirEvaluation, Vattenmyndigheten SE <p style="text-align: center;">Coffee</p> <p>End of discussions morning session</p>
<p>12:30 – 13:15 - LUNCH and networking</p>	
<p>13:15</p> <p style="text-align: center;">– 14:45</p>	<p>Continued discussions in group rooms</p> <p>Are the planned measures enough to reach GES, if not, what is the strategy to reach GES (exemptions?) and what can we learn post 2027?</p> <p>Monitoring of implementation of measures, how is it organized and on what detail are the information gathered? Assessed?</p> <p>Generating acceptance Cost effectiveness Exemptions Post-2027 frameworks</p> <p>Summary of session and agreement of what to present in plenary</p>
<p>14:45</p>	<p>Plenary Short presentations from the Working Groups in plenary by Lead (chair and/or secretary), each of the 4 WG ca. 15 min each</p> <p style="text-align: center;">Coffee</p> <p>Wrap up by the Programme committee</p>
<p>16:00</p>	<p>End of Nordic WFD Conference and goodbye 🙏</p>
